WATERPROOF UPHOLSTERIES

Panaz vinyl upholsteries for care and nursing environments have established a benchmark for exceptional performance. Market leaders over 3 decades, our success in creating award winning upholsteries emanates from beautifully designed fabrics and layers of protective technology.

BEAUTIFUL & DURABLE

LAYERS OF PROTECTION

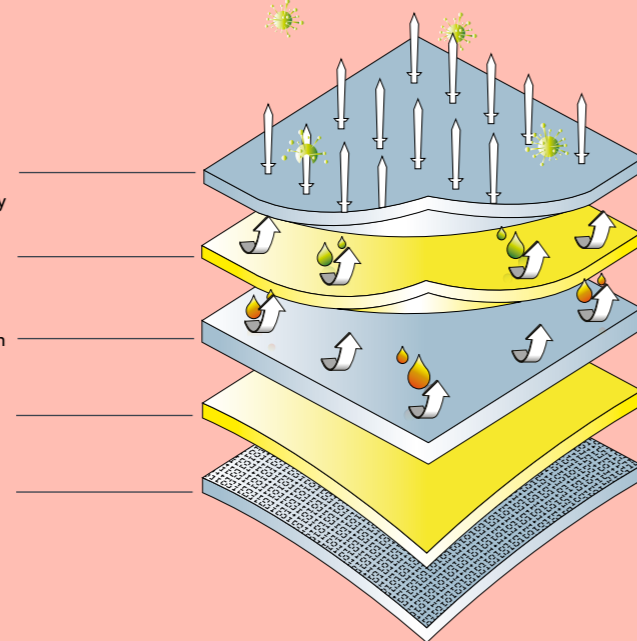

Anti-Microbial Protection with Shield Plus™
Permanently inhibits the broadest spectrum of microbes (even C diff spore) and prevents nasty odours.

Acryltron™ - Remarkable protective coating affording exceptional improved resistance to cleaning chemicals.

Polyurethane Coating - For durability and stain resistance.

PVC Core - For core strength and durability.

Substrate - Woven or knitted to suit the application.

Vinyl Upholstery

No upholstery fabric works harder than Panaz vinyl to deliver high performance in high traffic and extreme environments. Now, market leading Aston, Brookland and Cadet have new designs, extended colour palettes and are treated with both Acryltron™ and Shield Plus™ technologies. They are unique in the market place.

Vyflex™ offers all the same features and benefits as its close companion Cadet, but is unique in its multi-directional stretch. This stretch paired with the new generation of memory foam provides pressure relief seating for the long term infirm.

Why buy me?

- 60 gorgeous colours
- Flame retardant to Crib 5
- Shield Plus™ anti-microbial protection - effective against C Diff spore!
- Acryltron™ protective surface finish
- Waterproof
- Stain resistant
- High scratch resistance with colour through to the base cloth
- Bleach cleanable*
- Stirling rated
- Phthalate free
- Latex free
- Safe to use and accredited to ISO 10993 non-toxic

Acryltron™

Working with both industry and academic experts, Panaz have developed Acryltron™, an exclusive protective coating that creates a more resilient and durable finish for vinyl and faux leather products.

Through a process called Steric Hindrance, which mitigates the susceptibility of PU coatings to cleaning products, Acryltron™ reduces damage from **non-ionic surfactants, alkalis and alcohols** found in cleaning products and makes them more stain resistant and hard wearing than ever.

Acryltron™ coating is available on Aston, Brookland, Cadet and Vyflex.
